

Lake Sybelia Elementary Data Use

One third of LSE students
use on their mobile device
for over 46 minutes a day and
54% of adults do the same.

Oh no only 30 out of 49
people have no I hope the
stores keep making more!

If you add that up that means that 44% of people out of
everybody that took the survey are on their phone for over 46
minutes a day.

4 students that took the
survey play games on
their phone for over 5
hours.

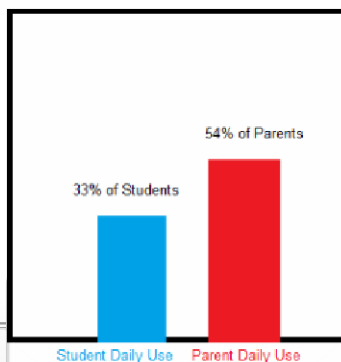

100% of LSE
parents own a
mobile device.

Most kids have a
phone but don't
bring it to school!

Sources: SurveyMonkey, LSE parent and student data use.com

LSE People Who Use Their Mobile Device for
AT LEAST 46 Minutes per Day

33 kids that took this survey got
their phone when they were 9
years old. (Some of the adults that
took this survey didn't get their first
phone until they were 65!)
