

38% of parents don't play any games on there phone.

*Lake Sybelia
Elementary Data usage*

11% of parents recieve 1-19 texts on an average day.

32% of students spend 46 or more minutes on there phone a day.

My Conclusions

1) 39% of students send 0 texts a day and only 8% of parents send 0 texts a day which leads me to think that parents text more than students.

2) 100% of parents have a phone and 16% of parents dont use apps which leads me to think that 74% use apps.

7% of students spend more than 5 hours playing games on there phone on an average day.

on an average day 39% of students send zero texts messages.

58% of students think texting is more convenient than calling.

75% of students own one of me

90% of students don't use apps on there phone.
