

14% of LSE parents have already used 7-9 GB and 12% of the students have too!!!!!!!

27% of LSE students download 9 apps plus per month that's alot of gametime!!!!

36% of LSE parents are most likely doing work while 8% of the students spend 5 hours plus playing games on their mobile devices!!!!

100% of LSE parents have a mobile device and 75% of LSE students have some kind of mobile device too.

"Wow i'm old 3% of people said they send 31 texts a day, I can't even text I can only call . Another thing that upsets me is that 83% of people said texting is more convenient then calling. Most of the time when kids see me they say " hey mom whats that " and most kids don't even think i'm a real phone . Sometimes I wish I was never made especially in this generation. Man am I glad to get that off my chest wait hold on i'm getting a call yay i'm finally going to get used,[ which is every phones dream] okay time for me to shine.

hahaha I am the cellphone and I'm the one replacing you people are getting rid of homephones because they think it's pointless to have to pay for two phones when one isn't even mobile

"Awe man I like it here I don't want to leave.Why why oh the madness!!!!"

hehe that's funny

"Your just getting used, people make calls with me 26 minutes plus per day"

"Hey calm down you guys".

hehehe this is funny too
