

### **DIGITAL DESIGN 1**

Course Description and Syllabus 

◆ Credit: 1.0

**Instructor:** Ms. Fotieo – Room 461 **e-mail:** georgia.fotieo@ocps.net

Office Hours: M-F: 7am; T & Th 2:20-2:45 Phone: 407-956-8300 X6174461

Department: Career & Tech Ed Website: teacherpress.ocps.net/LNHSDMA

**COURSE DESCRIPTION/GOALS:** This course is designed to provide a basic overview of digital design using the same tools as those used by today's professionals. Students will learn elements and principles of design and use them to design logos, manipulate photos, and create typeface design. Students will use various formats and mediums as part of the planning and design process. Projects will include both printed and interactive digital format. Students will master Photoshop and earn their Photoshop certification.

**DIGITAL MEDIA ACADEMY MISSION STATEMENT:** Prepare skilled digital media content creators for career and college opportunities in the field of digital media. All students enrolled in a Digital Design class are part of the Digital Media Academy. Academy students can earn industry certification as well as college credits which are discussed in this syllabus. Academy students will design artwork for various student design competition and build portfolios of their work that can help students earn internships with local businesses.

REQUIRED MATERIALS: Pens and/or pencils, paper, and one pocket folder (student provided).

#### **COURSE STRUCTURE:**

- Lectures/Demonstrations- We will use a wide variety of resources in class including teacher provided instruction, video and online resources. You should plan to take careful notes as you learn new tools and techniques. Good attendance, hands-on participation, and classroom discussions are necessary in order to be successful in class. Many of the lessons presented in class are condensed into short review videos posted on my website, but are not considered a substitute to class participation/attendance.
- Assignments/Projects- Following a demonstration lesson is often a follow-up assignment that allows students to
  practice new skills and techniques presented in lecture/demonstrations. Projects are more comprehensive in nature and
  are designed to allow students to show mastery of multiple techniques. In addition, students will be assigned independent
  challenges to help you master various learning goals.
- Quizzes- Occasional scheduled or unscheduled guizzes will be given to help ensure you stay up with assigned material.
- **Tests/Exams-** Periodic tests will be given. All students will have the opportunity to take the Photoshop industry certification exam. All students will take the county common final exam at the end of the year.

#### **GOLD SEAL VOCATIONAL SCHOLARS AWARD:**

The classes offered in the Digital Media Academy are all electives you can take to earn a Gold Seal Vocational (GSV) Scholarship which is part of the Bright Futures Scholarship. The GSV can only be used to fund a career education or certificate program. Florida high school students who wish to qualify for the GSV award must meet the following initial eligibility requirements. Students who qualify will receive the specified (cost per credit hour) award amounts established by the Florida Legislature in the General Appropriations Act. Institutional fees are not included in the award. To qualify students must:

- Achieve the required weighted minimum 3.0 GPA in the non-elective high school courses
- Take at least 3 full credits in a single Career and Technical Education (CTE) program; this course, Digital Design 1, counts as one of those courses under the CTE umbrella
- Achieve the required minimum 3.5 unweighted GPA in the CTE courses
- Achieve minimum score on SAT, ACT, or PERT (see link below for latest score regs)
- 30 approved community service hours

It is recommended that once you successfully complete Digital Design 1, you enroll in Digital Design 2 next year. See your guidance counselor for more information or visit <a href="http://www.floridastudentfinancialaid.org/SSFAD/bf/">http://www.floridastudentfinancialaid.org/SSFAD/bf/</a>

### INDUSTRY CERTIFICATION:

Students enrolled in Digital Design 1 will have the opportunity to earn industry certification in Photoshop. Industry certification is highly regarded by today's technology related employers. For more information on Adobe certification, visit <a href="http://www.adobe.com/support/certification/">http://www.adobe.com/support/certification/</a>

**GRADING POLICY:** It is expected that all assignments be turned in on time. Late work is subject to a 20% penalty if turned in within 5 days—after 5 days, the assignment will not be graded. The majority of the assignments in this class are submitted electronically and it is the student's responsibility to submit their assignments with the required filename to the correct folder to ensure their work is graded. The student is responsible for obtaining missed assignments and/or material that may have been distributed during his/her absence from class by checking the digital daily agenda file on the classroom server. In addition, students should check my website for video reviews. Students are expected to keep a folder containing notes, handouts, and completed assignments. This folder will be kept in the classroom. Letter grades will be determined using a standard point evaluation. Assignment point values will vary. Grades will be based on total point accumulation during the grading periods. Points will be earned by daily assignments, projects, tests/quizzes, attendance, and participation. Please use ProgressBook to track grades <a href="https://parentaccess.ocps.net">https://parentaccess.ocps.net</a>.

**CLASSROOM EXPECTATIONS:** Students are expected to be on time and prepared for class and utilize lab time from start to finish. Students are not permitted to use the classroom computers for personal entertainment, gaming or social networking, or charging personal electronic devices. Students are not permitted to install software (on C or H drive), run any software from flash drives, or play online games. Students are not permitted to work on other course work unless Digital Design class work has been completed and turned in. Violations of these rules or OCPS' Computer Use Policy will result in disciplinary action as well as possible account restrictions.

Each student is responsible for completing his/her own work. Class work will include independent as well as work cooperative/group work. Students are responsible for all access that occurs under his/her login and password. Students must take precautions to prevent access by others. Under no circumstances should you provide your username/password to anyone.

Students are to respect each other as well as the computer equipment. Student work must be done in this lab and be saved to the school network. Personal electronic devices must be stored in backpacks and all backpacks must be stored in the backpack storage area during class time. No food, drink, candy or gum in the lab.

**PERSONAL ELECTRONICS POLICY:** Although all students have school-issued devices, students in Digital Design classes will use the classroom computers during class time as student devices do not have necessary software installed. Cell phones and school-issued devices are to be stored in backpacks and all backpacks must be stored in the backpack storage area during class time. Headphones are only allowed during designated lessons; student can use their personal headphones for designated lessons or students may use the classroom set of headphones. Headphones are not to be used to listen to music during class.

**FINAL NOTE:** We are living in the digital age and learning to create engaging and well-designed digital media will be a great advantage to you as you pursue your educational and life goals. Students cannot afford to miss class. Make every effort to be in class and be prepared to learn; each day builds upon the last. Do not be afraid to ask questions and to challenge yourself. Please see me if you need assistance; I am here to help you. It is suggested that students visit the class website frequently for news, featured student designers, important links, and a means of viewing student work created in class. Do not believe that you have to be born creative; creativity is in each of us, it just needs to be unearthed, just like any other valuable resource.
