Work Ethic

3D art students are expected to utilize their studio time wisely. Any misuse of this time or absences need to be made up after school or at their lunch time.

After school art is offered free of charge through All Stars. These classes will occur in room 123 Monday and Wednesday after school until 6pm.

Student Absences/Missing Assignments:

Per the OCPS Student Code of Conduct, it is the student's responsibility to request missing work. Students are allowed one day for each day they were absent to turn in missed work for full credit. After that time period, late work will have 10% point deductions for every day it is late.

In this course, students will...

-begin an exploration of the structural elements of art used when creating 3-D forms. Additive and subtractive processes are used to manipulate and construct sculptural or ceramic forms in media that may include, but are not limited to clay, wood, plaster, found objects, and paper maché, with consideration of the workability, durability, cost, and toxicity of the media used.

-examine the effects of attention to detail, size, position, overlapping, visual pattern, and texture, and these considerations will be reflected in the surface and structural qualities of completed art forms.

-in the 3-D art studio focus on use of safety procedures for process, media, and techniques.

-Student artists use an art criticism process to evaluate, explain, and measure artistic growth in personal or group works. This course incorporates hands-on activities and consumption of art materials.

Art Show/Event Attendance

Performance/Art Show/Event Attendance: Students who miss an art show must communicate the conflict three weeks prior to the scheduled event. Parents must contact the teacher directly via written letter or email. An alternate assignment will be required at the discretion of the teacher. Students who fail to meet this requirement (3 week notification) will be in violation of the magnet terms of agreement and may be referred for probation.
