

Studio Rules Agreement

(Due first week of school = 100 points)

I agree to and understand the following rules. I understand that breaking these rules disrupts the learning environment and can result in contact to my parents, and/or withdrawal of studio activity privileges, or, if there is a breach of the OCPs Student Code of Conduct, a discipline referral.

1. I will enter the studio quietly and get out the materials required for the day, without being instructed to do so;
2. I will sit in my assigned seat until I get permission to move to another work area;
3. I will not use computers without permission and when given permission, will use it only for class assignments;
4. I will not use my cell phone or other electronics in the classroom without teacher permission;
5. I will remove ear-phones from my head when entering the classroom and keep them off until I have been given permission to use them to listen to music during actively making art;
6. I will not text or watch online videos on my phone or other electronic device, during class time;
7. I will immediately stop talking when the teacher is giving direction, instructing, or demonstrating to the class;
8. During active art making, I will speak in a low voice to my fellow students, when I need to communicate; I realize that a quiet learning environment is what is expected at all times;
9. I will not remove tools and materials from the studio without teacher permission; doing so will result in a referral for "stealing";
10. I will use tools and materials in a safe and responsible way, as instructed;
11. I will not use tools or materials assigned to another person in class without their permission;
12. I will respect the art work of others by not touching / handling it;
13. I will work diligently during every class session, realizing that my parents will be contacted when I sleep, spend the time talking and not working or just sit /procrastinating in class;
14. I will respect my teacher and substitute teachers at all times; following directions given and speaking in a respectful tone / inflection of voice;
15. I will clean up my work area (pick up trash from the floor; throw trash away; wipe off tables, clean tools, etc..) and return all supplies and tools to their designated storage areas;
